Outdoor Cabinets Direct – Specification Guide

Welcome to Outdoor Cabinets Direct

Outdoor Cabinets Direct manufactures outdoor cabinets and outdoor kitchens that are 100% weatherproof. Our outdoor cabinets are made from high-quality, High-Density Polyethylene (HDPE) 3/4" polymer material. Originally produced for the yacht industry, Seaboard polymer will not rust, rot, corrode, mold, mildew, or de-laminate outdoors.

Our cabinetry is designed to withstand the constant punishment of being exposed to sun, salt, rain, snow, and extreme high and low temperatures. It will not fade and it never needs to be painted. It has a durable, easy to clean surface and is FDA approved for food service environments.

We not only supply our outdoor cabinets for beautiful outdoor kitchens, but also in restaurants, medical offices, theme parks and zoos, where durability and low maintenance are important. Our cabinetry comes with a Limited Lifetime Warranty to the original purchaser.

Thank you,

Outdoor Cabinets Direct

CABINET SPECIFICATIONS

All our cabinets are made from solid 3/4" thick high-density polyethylene (HDPE). Our cabinets are CNC machined for exact tolerances within one half millimeter. They are constructed using 8 x 35mm nylon dowels and 1-5/8 stainless steel screws. They have 3/4" thick solid backs and are completely squared at our factory. The hinges are high grade stainless steel with a 3-way adjustment.

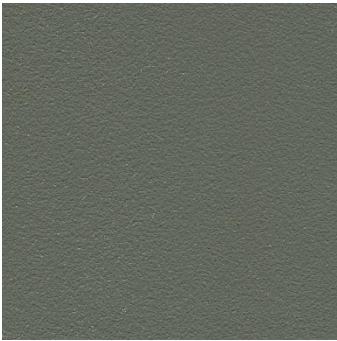

Base cabinets have a 30" cabinet box that sits on adjustable leg levelers. This allows the cabinet to be leveled on sloped exterior surfaces. The leg levelers can then be wrapped with toe-kick for a finished product. The standard base cabinet depth is 24-1/2 including the doors and 27-3/4 for grill cabinets including the doors. The drawers are made of the same 3/4" thick HDPE material, with a high-quality stainless steel full extension drawer slide. Base cabinets have a full depth adjustable shelf where applicable.

Wall cabinets are 13-1/2" deep including the door(s). Wall cabinets that are 24" high have 1 adjustable shelf. Wall cabinets that are 30" to 36" high have 2 adjustable shelves. Wall cabinets that are 42" high have 3 adjustable shelves.

Quality & Selection

All our outdoor cabinets are made from ¾" thick HDPE polymer material. Our cabinet components are CNC machined for exact tolerance and construction. We offer 10 door styles in 20 colors, so you have many options in selecting the best cabinets for your project.

Cabinet Customization

If you need custom-sized cabinets, we can modify our cabinets to fit your needs. Not every space will accommodate standard cabinet sizes, let us help you make your cabinets a perfect fit.

Outdoor Cabinets Direct – Specification Guide

All Cabinets and accessories are made from solid $\frac{3}{4}$ " High-Density Polyethylene (HDPE)

Grill Cabinets

Grill cabinets are specialized outdoor kitchen cabinets engineered specifically to support heavy, built-in gas grill heads, charcoal liners, or ceramic kamado cookers. Unlike standard storage cabinets, they feature a lowered, reinforced top platform designed to hold weight safely and keep the cooking surface at an ergonomic height.

All our grill cabinets must have the insulated liner installed with the grill. Be sure to check with the grill/burner dealer for the correct insulated liner. The size of your grill cabinet is determined by the grill and insulated liner. We offer many different grills, burners, and other appliances that we can ship with your cabinet order.

Grill cabinets can also be made to house a warming drawer at the bottom instead of 2 doors.

Outdoor Cabinets Direct – Specification Guide

All Cabinets and accessories are made from solid ¾" High-Density Polyethylene (HDPE)

BURNER DOOR CABINETS

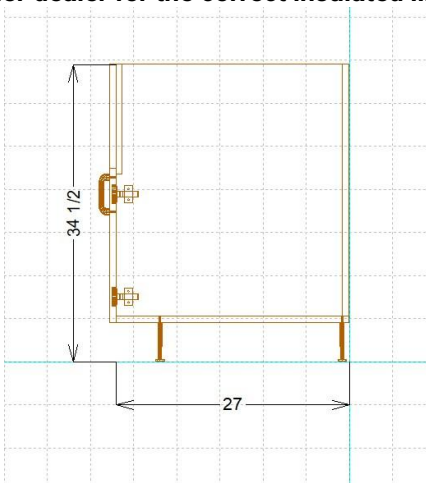

Cabinet Names: Burner Cabinet-1 Door

GB1527	1 Door	1-Grill Panel 12" High
GB1827	1 Door	1 or 2-Doors 18" High
GB2127	1 Door	
GB2427	2 Doors	

Burner Cabinets

Burner cabinets are specialized outdoor kitchen cabinets designed specifically to house built-in single burners, dual side burners, or high-output power burners. Like a grill base, they feature a modified top layout to accommodate gas cooking drop-ins while providing dedicated storage underneath.

Some built-in single burners, dual side burners, or high-output power burners must be installed with a matching burner insulated liner. Be sure to check with the grill/burner dealer for the correct insulated liner.

BURNER 2 DRAWER CABINETS

Cabinet Names: Burner Cabinet-2 Drawer

GB1527-D2	2 Drawer	1-Grill Panel 12" High
GB1827-D2	2 Drawer	2-Drawers 9" High

CG27	2 Door	
CG30	2 Door	Pedestal Door Cabinets
CG33	2 Door	1 or 2 Doors 20" High
CG36	2 Door	

Ceramic Grill Cabinets

Ceramic grill cabinets are specialized outdoor kitchen cabinets engineered specifically to support heavy, round ceramic cookers like the Big Green Egg, Kamado Joe, or Primo Ceramic Grills. Because a ceramic grill can easily weigh between 150 to over 250 pounds and radiates intense ambient heat from its base, these cabinets feature a radically lowered, heavily reinforced interior support to accommodate the weight of the ceramic grill.

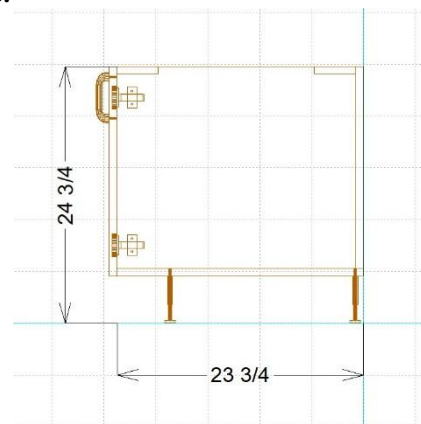

Cabinet Names: Pedestal Door Cabinet

PB09	1 Door	PB30	2 Door
PB12	1 Door	PB33	2 Door
PB15	1 Door	PB36	2 Door
PB18	1 Door	PB39	2 Door

B42-45BR 1 Drawer/1 Door

B45-48BL 1 Drawer/1 Door

B45-48BR 1 Drawer/1 Door

Corner cabinets are used to join two intersecting cabinet runs in L-shaped or U-shaped outdoor kitchens. Instead of letting the deep intersection point become dead, unreachable space, corner cabinets are engineered specifically to maximize storage space and maintain smooth exterior transitions. Corner cabinets can be a 36" x 36" wide diagonal cabinet with a single door to allow maximum access to a corner, or it can be a blind corner cabinet that is pulled away from the corner and then another cabinet butts into the blind panel to make an L-shape. Either configuration will give you much more storage space.

Outdoor Cabinets Direct – Specification Guide

All Cabinets and accessories are made from solid $\frac{3}{4}$ " High-Density Polyethylene (HDPE)

2 DRAWER CABINETS

3 DRAWER CABINETS

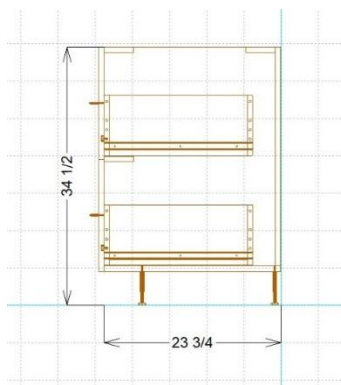

Cabinet Names: 2 Drawer Cabinet

2DB09	2 Drawer	2-Drawers 15" High
2DB12	2 Drawer	
2DB15	2 Drawer	
2DB18	2 Drawer	
2DB21	2 Drawer	
2DB24	2 Drawer	

2-Drawer Cabinets

Our 2-Drawer Base cabinet has 2 large drawers stacked on top of each other allowing for storage of large items in a drawer. The dual-tier setup maximizes internal a by letting you pull the deep drawer box completely outward, giving you immediate access to items stacked in the very back without needing to bend down and reach into a dark cabinet.

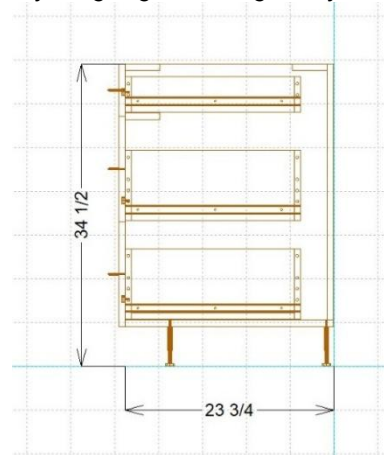

Cabinet Names: 3 Drawer Cabinet

3DB09	3 Drawer	1-Drawer 6" High
3DB12	3 Drawer	2-Drawers 12" High
3DB15	3 Drawer	
3DB18	3 Drawer	
3DB21	3 Drawer	
3DB24	3 Drawer	

3-Drawer Cabinets

A 3-Drawer Base Cabinet is a cabinet designed for storage featuring three stacked drawers instead of swinging doors. It serves as the ultimate organization hub for smaller handheld items, tools, and accessories. By separating the storage into three-tiered levels on full-extension slides, it eliminates deep cabinet clutter and keeps everything organized right at your fingertips.

Outdoor Cabinets Direct – Specification Guide

All Cabinets and accessories are made from solid $\frac{3}{4}$ " High-Density Polyethylene (HDPE)

4 DRAWER CABINETS

OPEN BASE SHELF CABINETS

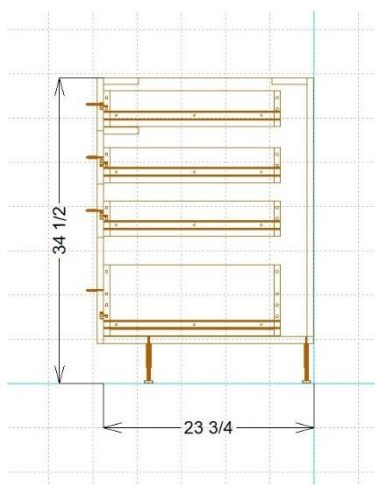

Cabinet Names: 4 Drawer Cabinet

4DB09	4 Drawer	3-Drawers 6" High
4DB12	4 Drawer	1-Drawer 12" High
4DB15	4 Drawer	
4DB18	4 Drawer	
4DB21	4 Drawer	
4DB24	4 Drawer	

4-Drawer Cabinets

Our 4-Drawer Base Cabinet gives you a fourth drawer for even more storage. In this configuration you will have 3 small drawers (6") for more utensil and cutlery storage and 1 large drawer (12") for larger items.

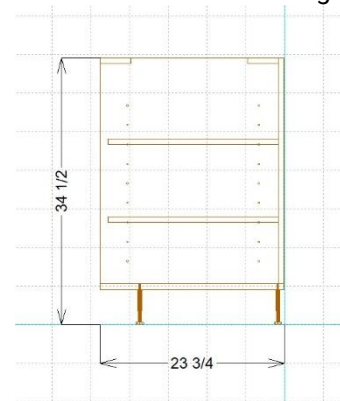

Cabinet Names: Open Base Shelf Cabinet

OB09	Open 2 Shelves

Wall corner cabinets are specialized upper cabinets engineered to join two intersecting cabinet runs on an L-shaped or U-shaped wall layout. Just like lower corner units, they prevent the deep intersection point of an upper wall run from becoming dead, unreachable space, allowing you to maximize vertical storage all the way into the corner. Our **Diagonal Wall** cabinets fit snugly in the upper corner of your outdoor kitchen and allow wall cabinets to be installed to both the left and the right of the Diagonal Wall.

Outdoor Cabinets Direct – Specification Guide

All Cabinets and accessories are made from solid ¾" High-Density Polyethylene (HDPE)

WALL BLIND CORNER CABINETS

TK0472

TK0572

TK0672

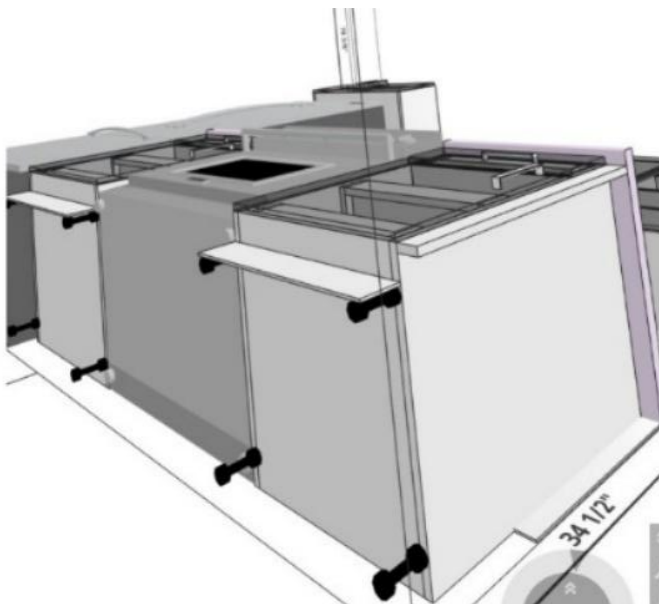

TK0872

TK1072

Toekick

Toekicks are $\frac{3}{4}$ " weatherproof (HDPE) base strips that clip to the bottom of the cabinetry legs, hiding the feet while sealing out leaves and outdoor debris. They are available in several sizes to allow the toekick to be trimmed to fit any outdoor slope that may exist for drainage. They are easy to install and remove if you ever need to clean under the cabinets.

Leg Levelers adjust from 3-1/2" to 6" high

DEP4212W

DEP3021B

DEP3024B

DEP3027B

DEP3030B

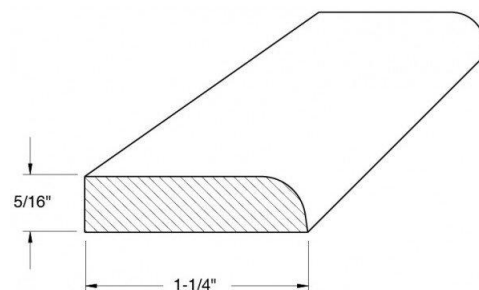

Decorative End Panels

Decorative End Panels are used to cover an exposed cabinet end. They will typically also cover the edge of the door or drawer(s) to give a more built-in look. If you select a Decorative End Panel, then you do not need a finished end. They can also be used on the back side of island or peninsula cabinets. Custom sizes are available.

Accessory Names: Corbels and Scribe

Corbel 9x9

SM = Scribe Molding

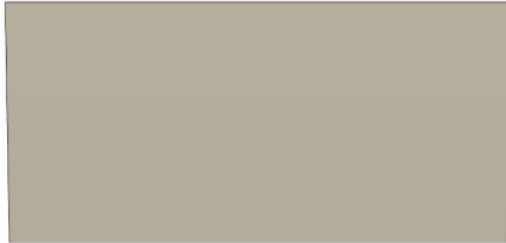

Corbels and Scribe

Corbels are used to support your countertop(s) on the island cabinets or bar back(s). Contact your countertop supplier for recommended quantity and sizes for your needs. Scribe is used to cover any gaps seen between your cabinets and walls, etc.

Outdoor Cabinets Direct – Specification Guide

All Cabinets and accessories are made from solid ¾" High-Density Polyethylene (HDPE)

ISLAND PANELS

Accessory Names: Island Panels

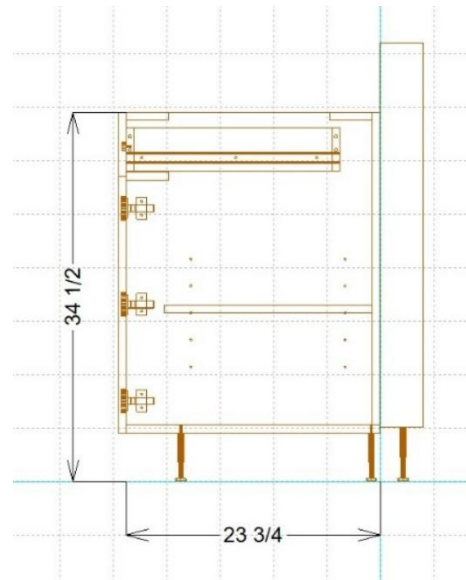

IP30
IP36
IP42
IP48

Island Panels

Island panels are used on the back side of cabinets that are exposed (not against a wall or other cabinets) such as an island or peninsula. The panel will cover the seams that are seen on the back of cabinets. They will be the height of the cabinet box without toekick so as not to be cut for a slope. Decorative Panels can be added as well. Custom sizes are available. Ask your sales representative for the correct size for your outdoor kitchen.

BAR BACKS

Accessory Names: Bar Backs

BB12 BB36
BB15 BB39
BB18 BB42
BB21 BB45
BB24 BB48
BB27 BB51
BB30 BB54
BB33

Bar Backs

Bar Backs are a separate accessory to allow your island or peninsula cabinets to have a raised bar attached to it. They are available in different sizes to fit your space and needs. All bar backs come on leg levelers to adjust for the slope allowed for drainage. Simply install your cabinets and then attach your bar back to them. They are also made to span the gap made by installing appliances in between your cabinets.

Outdoor Cabinets Direct – Specification Guide

All Cabinets and accessories are made from solid ¾" High-Density Polyethylene (HDPE)
